Automation Landscape is Evolving at Rapid Phase...

I can think, reason, and learn like a human in any domain

Agentic Al

I can understand goals and figure out how to achieve them

Ċ

(Line)

GenAl

I can create based on prompts

RPA + AI/ML

I can learn myself and apply the learning

RPA

I follow instructions exactly

*

U

•

GenAl is a productivity amplifier that accelerates creative and analytical work that bottlenecks humans

Intelligent Automation is combination of RPA and AI/ML models

(✿

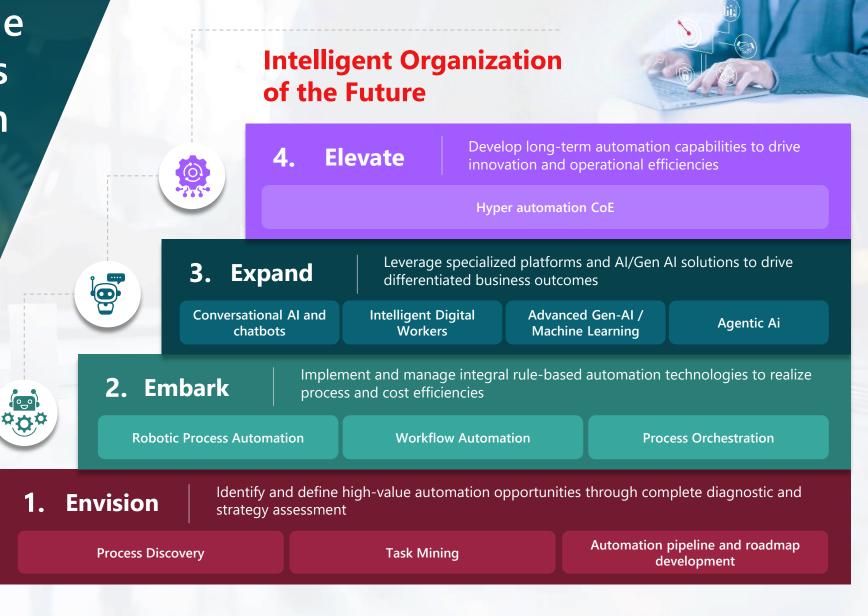

RPA is the task automation that eliminates manual effort wasted on repetitive tasks

AGL is a **self-directed** intelligence that overcomes human cognitive limitations across all domains

Agentic AI is a collaborative actor that removes the need for constant human oversight of complex processes

AI

Our offerings provide right building blocks to realize your vision of becoming a transformative, intelligent organization

Our suite of automation offerings

Intelligent Digital worker

Gen-Al Powered Hyper Automation

Agentic-Al

Capabilities

Advanced Automation integrated with AI/ML

Intelligent Chat Agent with human like conversations

Integrating algorithms for enterprise level end to end automation with self decision

- Task Agents & Decision-Making Agents
- Multi Agents System

Consulting / Advisory services

Projects / resource augmentation

24/7 Remote Production Support for Automations & Digital workers

Product

Big [Bot] – Smart Automation management and support

Command Center for Automation

Self Healing Agents

24/7

Availability

3000+

Global Users (workflows) ~1Mn

Annual Transactions (workflows) 600+

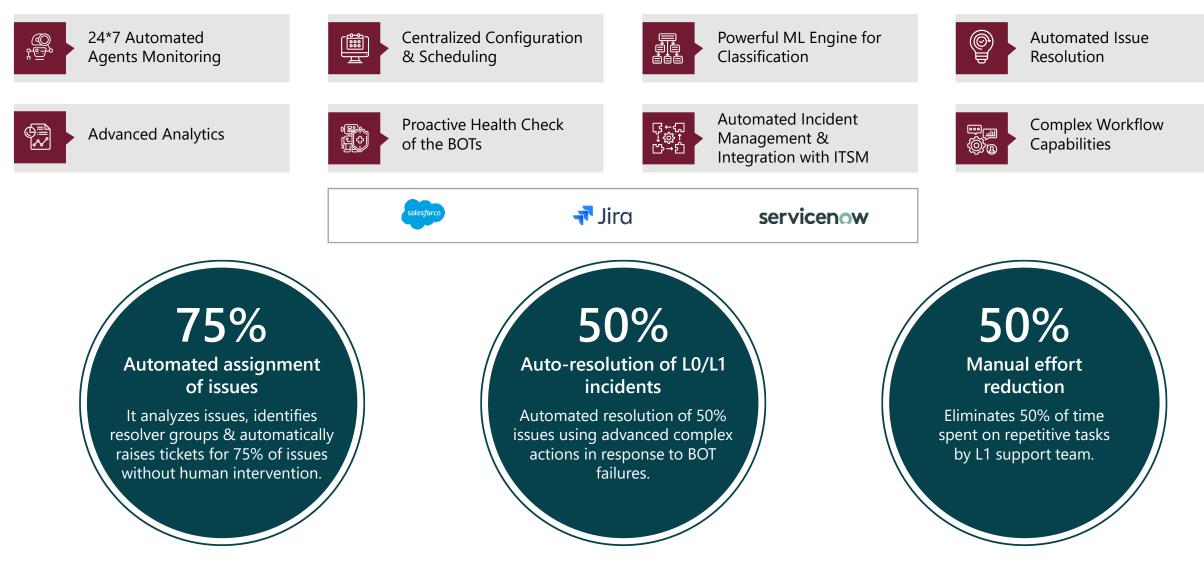

Automations Successfully deployed Paperless Operations

Execution Approach | Intelligent Automation

Monitoring & Agentic Solution Design Discovery Test Management **Process Understanding** Functional Design | Test case scenario UAT | Fitness testing | Issue SOP for Agentic ops | Big | Solution Design Tracker | Code Deployment [B], Power BI dashboards | **Operations SME, Business Anomaly Detection** Analyst, Automation Consultant **Operations SME, Business Analyst,** Developer, Operations SME, Questionnaire, Workshops Automation Architect **Business Analyst** 24/5 L1 Support ×× **Evaluate Build Production** Agent Code Development | Coding Development checklist | Release note | Automation Amenability Agent determination | Cost Benefit standard | Code review | BA Testing Role Segregation Matrix, Code Analysis (Business Case) | Project development, Hyper care support Automation Architect & Developer Charter Automation Architect, Developer **Operations SME**, Business Analyst, Automation Consultant/Architect

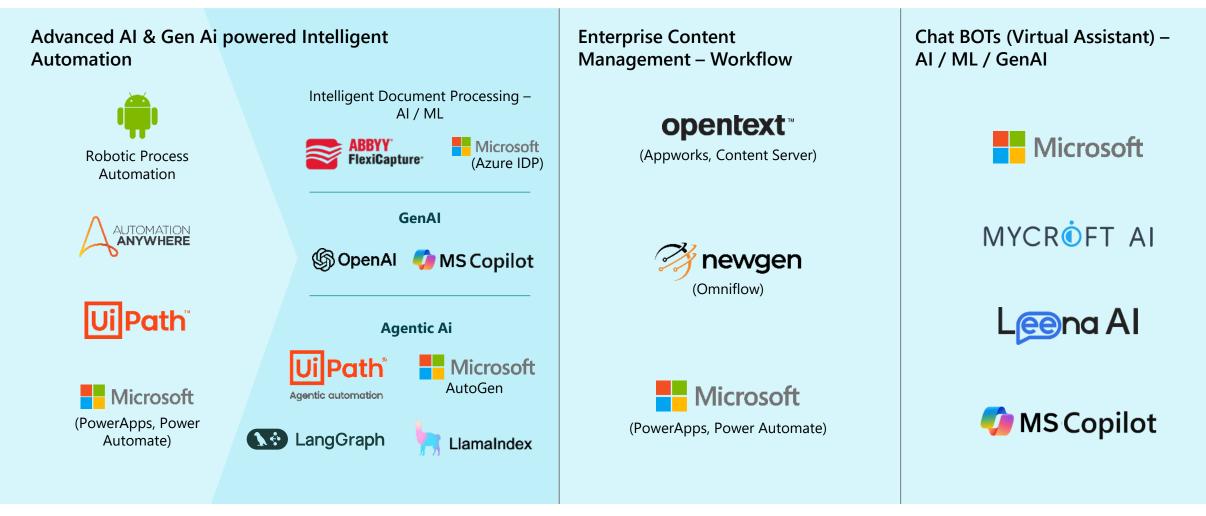

Your RPA initiative doesn't end with Automation deployment.

"Big B(OT)" – the Smart Multi Agent Management System

Mindsprint's Hyper Automation CoE Tech Suite

Synergizing success with strategic partnerships.
